cafcattleco@gmail.com

Dear Cattlemen and Friends,

We would like to welcome and encourage you to attend our 5th annual sale. For the past four years CAF Cattle Company has sold bulls in conjunction with Schuppe Farms at their Annual Bull and Heifer Sale. Gordon and Earline Schuppe retired this past year from the sale after their 28th annual sale.

We are very thankful for their guidance and support in our endeavor. We have leased more cows from Schuppes to add to our existing herd to continue to provide bulls and heifers of this exceptional quality that you have been used to in the past.

We are incredibly proud of this set of bulls and heifers. They are certainly top of the line for Lim-Flex cattle. The cattle are available to view at our home just north of Iliff.

We invite you to come early on **Wednesday, March 27th** to view the bulls and heifers at Sterling Livestock Commission. Our son, A.J., and his cousins plan to have a lemonade and donut stand set up for you to enjoy!! The sale starts at **11am**. The Sterling Livestock Commission Bred Cow Special will follow our sale.

We would like to thank our family, friends, and customers for all the support to make this dream come true. We certainly couldn't do this without you all. Thank you for being a vital part of our Ag operation.

Looking forward to seeing you on March 27th!

God Bless,
The Frank Family
Andy, Crystal
AJ, Julia, & Jacob

CONTACT INFORMATION: Andy Frank: 970-580-0550

Crystal Frank: 970-520-4106

E-mail: cafcattleco@gmail.com

Sterling Sale Barn: 970-522-1950

SALE LOCATION: Sterling Livestock Commission

East of Right of Way Road, just off of Riverside Drive and Cucarola Road

Sterling, CO 80751

PHONING IN BIDS: If you are unable to attend the sale but would like to purchase a bull, rest assured all phone bids will be handled in a most confidential manner. If you have selected a bull, please contact Jim Santomaso (970-522-1950) or Andy (970-580-0550) prior to the start of the sale. If you would like us to select a bull for you, contact Andy prior to or the morning of sale day. Any cattle purchased sight unseen are guaranteed to satisfy!

ONLINE BIDDING: The sale is available on-line through www.sterlinglivestock.com Click on "On-Line Auction" and scroll down to select Sterling Livestock in the sale listing. Our sale will then come up for you to view. Register early if you cannot attend the sale but would like to bid.

ANNOUNCEMENTS: Announcements made sale day take precedence over printed materials in this catalog.

CAF
Cattle Co.
Iliff, CO

CAF CATTLE COMPANY's
BREEDING PROGRAM STRESSES THE IMPORTANCE OF FERTILITY, PERFORMANCE, GOOD DISPOSITION, AND CALVING EASE.

GE-EPDs
North American Limousin Foundation

ALL OF OUR BULLS HAVE BEEN DNA TESTED TO HAVE GENETICALLY ENHANCED EPD's.

The bulls have tested negative for BVD P1. DNA testing has been done for homozygous black and polled traits and several inherited traits. All bulls have been ultra-sounded for carcass traits.

TERMS & CONDITIONS: Terms of the sale are cash unless prior arrangements are established between buyer and seller.

SPECIAL PURCHASE AGREEMENT: Buyers are encouraged to take purchased bulls or heifers on the day of the sale. Payment is due sale day. If the buyer desires, Andy will keep the bulls until April 15th free of charge. Delivery will start April 1st. After April 15th there will be a charge of $2.00 per day per head feed charge. All heifers sold should be picked up on sale day. If you need to make special arrangements with Andy regarding heifers, please do so following the sale. Heifers can be kept for a reasonable amount of time after the sale at $2.00 per day.

VETERINARIAN: Dr. Jen Elliott is CAF Cattle Co's veterinarian. All bulls and heifers will have passed a breeding soundness exam. Health Certificates will be available on sale day.

LIABILITY: Neither the owners or employees of Sterling Livestock or CAF Cattle Company can be held responsible for any accidents, but every effort will be made to provide for the safety and comfort of those attending the sale.

Breeding Guarantee: All bulls are guaranteed through the first breeding season (from sale day to September 1) unless there is gross negligence or willful misconduct on the part of the purchaser. If there is permanent injury or death, we will provide a replacement bull (if needed and available) or credit towards purchase of a bull in next year's sale. The purchaser is responsible for injuries that can heal with proper care. We do not cover injuries prior to breeding season if the bull purchased is turned out with other bulls. Cattle believed to be non-breeders are to be returned to the seller at the buyer's expense. This guarantee is a contract between the buyer and the seller. All other parties are acting as representatives only.

Calf Vaccination Program: At birth the calves receive a 7-way shot, Jump Start oral paste, and Multimin. Before going to grass in May they receive Inforce, Bovishield Gold 5, and One Shot Ultra. Pre-weaning shots are Pyramid 5 with Presponse, Vision7/Somnus, and Multimin. Pyramid 5 with Presponse was repeated at weaning and calves were back poured with Dectomax.

Handling of our bulls: This year we have grown the bulls on Purina's Accu-Ration and grass hay. This program has really brought out the natural muscle in the bulls.

Our cows work for themselves. They graze on grass all summer until they go to corn stalks. We only supplement them with a good mineral program. We do not use any additional protein or energy supplements. They stay turned out until calving. After they calve, they go back out to corn stalks where they stay until later in April when we bring them in to breed. Then they move out to grass. Our calves are grown on mother's milk and grass.

LIM·FLEX®

LIMOUSIN·ANGUS HYBRID

Lim-Flex stands for Limousin with muscle and efficiency, along with flexibility.

The most significant strengths of this powerful genetic blend are:

- Flexible seedstock for simple, easily managed crossbreeding
- Flexible market progeny that consistently hit dressing percent
- Yield and quality grade targets for mainstream, case-ready markets
- Flexible females adapted for efficiency across a wide range of environments
- FLEX stands for Limousin Efficiency Cross(X): the beef industry's answer to profitable system-wide production of case-ready products

CERTIFIED LIMS Limousin Inventory Management System PERFORMANCE HERD

CAF Cattle Company participates in the Limousin Inventory Management System. This means we maintain our cow herd inventory with the North American Limousin Foundation. For each cow in our herd we must have a calf of record, reason for no progeny recorded, or reason for disposal. Complete herd information contributes to more accurate data and EPDs.

HETEROSIS

Crossbreeding Systems are hard to deploy and maintain in small herds. However, using Lim-Flex bulls can simplify crossbreeding and make hybrid vigor a real plus in your herd. Because, lowly heritable traits like reproduction, health, and cattle longevity are best improved by crossbreeding. Crossbred cows and maternal heterosis is key to profitability on commercial cow/calf operations. Studies have shown net profit per cow is increased by $150 per cow, per year as a result of maternal heritability.

LIM-FLEX BULLS MAKE CROSSBREEDING EASY.

Seek Value when buying a bull. The lowest priced bull is seldom the best value. If you find a bull that has the traits you are looking for: BUY HIM. Set a budget but understand it is often hard to find everything you are looking for. Bulls with the traits you are seeking can add value to your cattle in a hurry. They can add far more than a cow. The bull you buy this year will impact your herd for the next 5 years with his calves, but his daughters will impact your herd for the next 20 years. Make a good investment! Buy a bull that adds value to your calves and your cow herd.

Improving Selection through NALF Genomic-Enhanced EPDs (GE-EPDs)

Limousin breeders and their commercial customers benefit greatly from new breeding and selection tools. The North American Limousin Foundation (NALF) has launched genomic-enhanced EPDs (GE-EPDs) with the fall 2015 international cattle evaluation. This provides GE-EPDs for all Limousin and Lim-Flex® animals that have completed DNA testing for genomic profiles.

A recalibration in cooperation with GeneSeek® and the Canadian Limousin Association has supplied genomic profiles on more than 4,500 Limousin and Lim-Flex animals. Molecular breeding values from either a high- or low-density genomic profile test are then blended into EPD calculations to produce GE-EPDs. This recalibration has led to the doubling of the number of animals included, the number of traits enhanced, and the genetic correlations.

GE-EPDs provide more precise EPDs based on a combination of pedigree, phenotype, and DNA. One major benefit is risk reduction through increased accuracy value on many traits - equivalent to having 8-20 progeny. This saves time when assessing young breeding stock and delivers commercial customer confidence when buying seedstock.

GE-EPDs also give the chance to collect data on economically important traits, which are expensive or difficult to measure.

The information from the genomic data can be as informative as a bull's first calf crop or a cow's lifetime production record. Since the genomic data is incorporated directly into the EPDs, cattle producers will not have to learn how to interpret the new data.

NALF GeEPDs™

MAJOR BENEFITS OF GE-EPDs

- Risk reduction through improved accuracies
- Value of time to assess breeding stock at a younger age
- Increased rate of genetic progress
- Getting data on economically important traits, which are expensive or difficult to measure
- Combination of pedigree information, individual performance data, and genomics into one easy to understand number

Animals that are genomic-enhanced will have the NALF GE-EPDs displayed on their animal detail screen and performance reports in the NALF-DigitalBeef platform. Traits that are genomic-enhanced are highlighted in yellow on these reports.

For more information visit www.NALF.org or call 303-220-1693.

A very heartfelt
THANK YOU for attending
our 5th Annual Sale.
We could not do this
without the continued
support from all our family,
friends, and neighbors.
Your friendship and interest
in our breeding program is
beyond appreciated!
We hope you will stop by our
home and feedlot any time
and visit with us about our
cattle or your particular
production needs.

Andy and Crystal Frank
